

MAKING BETTER PLANT-BASED CANDLES

The Golden Wax® Difference

Through Golden Wax®, AAK offers a strong portfolio of plant-based candle waxes sourced from soy, palm and coconut, with quality protected by strong process controls. With our wax knowledge and expertise, including a precision hydrogenation process and complex blending capabilities, we create specialized formulations to meet any operational, functional or marketing requirements.

- Flakes are easier to work with than traditional paraffin slabs
- Compatible with standard candle making equipment
- Easily modified and combined with other waxes
- Versatile and adaptable, for easily customizable blends
- Available in liquid bulk or flakes

PREMIUM PLANT-BASED WAXES

PRODUCT	SOURCE	FEATURES & BENEFITS
CONTAINER CANDLES		
Golden Wax® 419	Soy	No need to blend with other waxes. Offers bloom/frost reduction.
Golden Wax® 444	Soy	
Golden Wax® 464	Soy	
Golden Wax® 454	Soy/Coconut	
WAX MELTS OR TARTS		
Golden Wax® 494	Soy	No need to blend with other waxes. Offers bloom/frost reduction.

PLANT-BASED WAXES

PRODUCT	SOURCE	FEATURES & BENEFITS
CONTAINER CANDLES		
Golden Wax® 402	Soy	Blends well with paraffin, slack wax, beeswax and microcrystalline wax
Golden Wax® 415	Soy	
Golden Wax® 456	Soy	
Golden Wax® 5563	Coconut	
Golden Wax® 8263	Palm	
MELT POINT ADJUSTERS		
Neutresca® 7900	Soy	Blends well with other waxes to improve wax stability
Neutresca® 7930	Palm

GENERAL USE GUIDELINES

PRODUCT / BLEND	MELTING TEMPERATURE	POUR TEMPERATURE	FRAGRANCE LOAD	COOLING	WAX MELTING POINT
Golden Wax® 419	180°F (+/-5°F)	170-180°F (+/-5°F)	5-10%	Ambient temperature (70-75°F)	110-115°F
Golden Wax® 444	175°F (+/-5°F)	135°F (+/-10°F)	5-10%	Ambient temperature (70-75°F)	119-125°F
Golden Wax® 464	175°F (+/-5°F)	135°F (+/-10°F)	5-10%	Ambient temperature (70-75°F)	113-119°F
Golden Wax® 494	175°F (+/-5°F)	160°F (+/-5°F)	5-10%	Ambient temperature (70-75°F)	125-135°F
Golden Wax® 454	175°F (+/-5°F)	160°F (+/-5°F)	5-10%	Ambient temperature (70-75°F)	115-125°F
70% Golden Wax® 30% Paraffin Wax Blend	175°F (+/-5°F)	160°F (+/-5°F)	5-15%	Ambient temperature (70-75°F)	Variable

Conditions will vary based on mold type and size, fragrance and dye used. AAK does not produce vegetable wax/paraffin blends. Information for demonstrative purposes only. AAK does not sell the finished blends (vegetable wax only).

QUALITY CONTROL

Our Customer Innovation experts assess burn performance and candle aesthetics, and perform analytical testing at our dedicated WaxWorks Lab. We supply Golden Wax® flakes from our Louisville, KY facility, and bulk wax products from all three of our U.S. locations:

• Richmond, CA • Louisville, KY • Port Newark, NJ

*Brought to you by AAK, the Golden Wax® brand provides value-adding natural plant-based wax solutions to candle manufacturers, wax blenders and candle supply companies worldwide. With the resources, knowledge, expertise and commitment of AAK, Golden Wax® products truly provide a difference in your final product. **We are proud to maintain membership in the National Candle Association.***
